Serial No. 10/692,166
Response to Office Action mailed October 2, 2006

I. CLAIM AMENDMENTS

Please amend the claims as indicated in the following listing:

1. (currently amended) A computer implemented process for creating a query for a database_ located in a memory, wherein the computer implemented process causes a computer to automatically prevents identify a set of necessary tables in the database and places a clause into the query so that the query can only access the set of necessary tables.

2. (previously amended) The computer implemented process of claim 1 comprising:

determining whether a SQL template has a FROM clause placeholder and determining whether a FROM clause table has been previously specified in the SQL template;

responsive to the determination that the SQL template has the FROM clause placeholder and that the FROM clause table has not been previously specified in the SQL template, generating a FROM clause for the table;

determining whether the SQL template has a JOIN clause placeholder and determining whether the FROM clause has been added; and

responsive to the determination that the SQL template has the JOIN clause placeholder and that the FROM clause has been added, generating a JOIN clause.

3. (previously amended) The computer implemented process of claim 2 further comprising:

responsive to the determination that the SQL template has the FROM clause placeholder and that the FROM clause table has not been previously specified in the SQL template, adding the FROM clause to a FROM clause string; and
